DETAILED ACTION

Election/Restrictions

Applicant's election of Species III (figures 6-12) in the reply filed on Nov. 26, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 1-9 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on Nov. 26, 2005.

Drawings

The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the protective sleeve having an open at the top end and at the bottom end as defined in claim 10 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the

Art Unit: 3611

drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

The abstract of the disclosure is objected to because on line 3, "includes provides" is awkward and confusing (it appears that the applicant meant to cancel the word provides but failed to place a line through the entire word). Correction is required. See MPEP § 608.01(b).

Claim Objections

Claims 10 and 14 are objected to because of the following informalities: In claim 10, section c), line 1, "crossection" should be "cross-section". In claim 10, section c), line 2, "said top" should apparently be "said top end" to be consistent with section a), line 3. Appropriate correction is required.

Claim Rejections - 35 USC § 112

Claims 10,13, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3611

In claim 10, line 2, "in combination" is indefinite since it is not clear what elements/structure is being claimed in combination. In claim 10, lines 9-10, stating that the sleeve is annular in shape appears to conflict with line 7 which says the sleeve is U-shaped. A possible solution is to state that the sleeve is U-shaped in cross-section in line 7. In claim 10, line 10, stating that the sleeve is open at the bottom end conflicts with line 7 which states that the top end is open. Figure 8 shows that the top end is open and not the bottom end. In claim 10, section b, lines 3-4, it is not clear whether the opening in the sleeve is the same as the at least one aperture in the sleeve defined in claim 10, section a, line 5 or is an additional opening. In claim 15, line 7, it is not understood how a sleeve can be both annular and U-shaped. The sleeve is annular in overall shape and has a U-shaped cross-section.

Response to Arguments

Applicant's arguments filed Nov. 26, 2005 have been fully considered.

Allowable Subject Matter

Claims 10 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Claim 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
